PROFESSIONAL SUMMARY

Versatile Full-Stack Web Developer with 2+ years of experience designing, developing, and deploying scalable web applications. Strong proficiency across the complete web stack — from pixel-perfect responsive UIs with React/Next.js to robust server-side APIs with Node.js and FastAPI. Demonstrated ability to integrate AI capabilities, work with relational and NoSQL databases, and manage cloud deployments end-to-end.

TECHNICAL SKILLS

Frontend

React.js, Next.js, Tailwind CSS, TypeScript, JavaScript, HTML5, CSS3, Responsive Design

Databases

MongoDB, Supabase (PostgreSQL), MySQL, Prisma ORM, Database Design

AI & APIs

OpenAI API, Gemini API, LangChain, Third-party API Integration, Webhooks

Backend

Node.js, Express.js, FastAPI (Python), REST APIs, GraphQL Basics, WebSocket

Cloud & DevOps

Vercel, Render, Docker, GitHub Actions, CI/CD, Git, Linux Basics

Soft Skills

Client Communication, Requirement Analysis, Agile Delivery, Problem Solving

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Freelance

2023 – Present

- Delivered 5+ client web projects from design wireframe to live deployment, consistently on schedule.
- Built multi-page Next.js applications with SSR/SSG optimization for SEO and performance.
- Integrated third-party APIs (payment gateways, maps, AI services) into client applications.
- Maintained 99.9% uptime across deployed projects using Vercel edge network and monitoring.

AI & BI Trainer | Chools Consultation Services

2023 – 2024

- Trained 150+ students in web development fundamentals, frameworks, and deployment workflows.
- Guided real-world project development from conception through live deployment.
- Delivered curriculum covering both frontend and backend development best practices.

KEY PROJECTS

ChatGPT Clone — AI Web Application — Next.js, Node.js, MongoDB, OpenAI API, Tailwind CSS

- Built full-stack AI chat web app with streaming real-time responses and conversation persistence.
- Implemented user authentication, session management, and chat history with MongoDB.
- Achieved 98/100 Lighthouse performance score through code splitting and lazy loading.
- Deployed on Vercel with automatic CI/CD pipeline from GitHub.

DOCSpot — Doctor Booking & Management Platform — React.js, Express.js, MongoDB, WebSocket

- Designed and built a complete healthcare booking platform with real-time appointment management.
- Implemented multi-role access (patient, doctor, admin) with JWT and secure session management.
- Built real-time notifications and availability updates using WebSocket.
- Mobile-first responsive UI achieving compatibility across all major browsers and devices.

CERTIFICATIONS

- MongoDB Certified Developer — MongoDB University
- MERN Stack Development Certification
- Microsoft Office Specialist Certification
